Overview

Nigeria is the world's third-largest exporter of dried ginger, with Kaduna State accounting for 70–80% of national production.

K-CAP GLOBAL LTD sources fresh ginger directly from farming communities in Nigeria's primary ginger belt and supplies dried split, dried whole and fresh ginger.

Sourcing

- Kaduna State: Kachia, Jaba and Kagarko LGAs — primary ginger belt
- Nasarawa State
- Gombe State
- Benue State
- Niger State

Production cycle

PLANTING WINDOW	March – April
HARVEST WINDOW	November – February
MATURITY FOR DRYING	8 – 10 months

Processing

- Washing & cleaning: Wet cleaning to remove field soil and foreign matter before splitting.
- Longitudinal splitting: Rhizomes split lengthwise to accelerate drying and preserve oil content.
- Sun drying: 7–14 days under controlled sun exposure depending on weather and moisture load.
- Mechanical drying: Finish-dry to 10–12% moisture in 4–5 hours for consistent batches year-round.
- Grading & sorting: Color, size and defect grading against ESA reference standards.
