

Sesame Seeds

K-CAP GLOBAL LTD

Edible-grade and crushing-grade Nigerian sesame, cleaned to 99%+ purity on Bühler and Cimbria lines.

This product brief is generated only from founder-source-backed website content. Missing product terms should be confirmed before quotation or contract use.

Overview

Nigeria is among the world's top producers of sesame seeds, contributing approximately 7% of global supply. Annual output ranges from 450,000 to 550,000 metric tonnes, with roughly 80% destined for export.

K-CAP GLOBAL LTD supplies edible-grade sesame for confectionery and bakery buyers, and crushing-grade sesame for oil extractors, processed on Bühler color sorters, Cimbria air-screens and gravity tables.

Sourcing

- Bauchi State
- Benue State
- Jigawa State
- Kano State
- Kogi State
- Taraba State
- Niger State
- Nasarawa State: 58,023 tons — 11.4% of Nigeria's 2024 sesame harvest
- Katsina State

Production cycle

2024 NATIONAL HARVEST	508,920 tons
2024 EXPORT VOLUME	362,874 tons
2024 EXPORT REVENUE	USD 425.6 million
YIELD WITH IMPROVED PRACTICE	500 kg → 1.5 tons per hectare

Processing

- Threshing: Mechanized threshing processes 1 tonne in ~9 hours with a 3-person crew (vs. ~5 days manually for 4 workers).
- Air-screen cleaning: Cimbria and Westrup air-screen machines remove chaff, dust and lightweight impurities.

- Gravity separation: Gravity tables and de-stoners remove stones and heavy contaminants.
- Color sorting: Dual Bühler color sorters lift purity to 99.9% for edible-grade lots.
- Bagging & storage: Storage capacity over 32,000 MT is documented for year-round consistent supply.

Quality details

EDIBLE GRADE PURITY	99.9%
CRUSHING GRADE PURITY	98 – 99%
NIGERIAN EXPORT GRADE	99%+ purity
REGULAR TESTING	Moisture, color, purity and oil content verification

Standards

- HACCP-certified processing
- EU Regulation 1881/2006 — mycotoxin limits

Export details

GRADE / FORM	Edible (99.9%), Crushing (98–99%), Nigerian Export (99%+)
PACKAGING	25 kg polypropylene bags, 50 kg polypropylene bags, 1 MT bulk totes
MOQ	1 x 20ft container
MARKETS	China, Japan, Middle East, Europe

Applications

- Tahini and halawa
- Bakery and confectionery
- Sesame oil extraction
- Ingredient processing
